IT MANAGEMENT
&
CONSULTING

A more connected company is a more productive company.

About
Our Company

In this day and age, new technology is constantly being introduced. The key to maximizing business potential is staying current with hardware and software. Our goal at Snow Peak Solutions is to give our clients a competitive edge by keeping up with tech trends while offering affordable pricing. We provide the complete package: hardware, software, and training to make sure your team and office are not only running smoothly but ahead of the toughest competition without any worry of falling behind.

THE
TECH HOUSE
Snow Peak Solutions

Having to worry about the little things takes time away from the important tasks. SPS is here to help manage the tools needed to ensure your business can continue to grow. We will implement new technologies as they are introduced to make sure your business is current and up to date with the latest technological solutions. SPS at home can also assure all your IT needs are handled for office work or R&R.

Our
Approach

Experiencing technical issues mid-workday can be a nightmare. Matters are only worsened when one cannot fathom a quick solution. Allow SPS to remove this added layer of stress. Our knowledgeable, and efficient team works to ensure your business is optimized with current solutions, and maintained to run smoothly.

Our goal at SPS is to ensure your day to day activities flow seamlessly without any technological hurdles. SPS IT consulting provides initial recommendations to improve the flow of business, and through readily available IT support, we see to it that your business is continuously operational and efficient. SPS provides you with the best support and in-house training, in order to increase utilization of software solutions, so your business may continue to grow.

With prompt service provided by SPS, your company can seamlessly focus on the tasks at hand instead of the technical issues that arise.

Our
Services

IT Support

Providing hardware and software support needed to ensure your business is always functioning properly and ready for the next project.

IT Consulting

Implementing the newest technology to improve overall productivity, simplify daily tasks, and provide solutions at the office and home.

Cloud Services

Offering Cloud software solutions to allow you access to your files from anywhere and back-up services so said files are never lost.
